

HIGHTEC Vacuum Cleaner 190H

With disposable waste container.

Supplied as standard with:

The Hightec Vacuum Cleaner with disposable waste container.

The model Hightec 190H with disposable waste container is a compact vacuum cleaner that is equipped with a removable disposable waste container

Thanks to the two quick-release fasteners, the disposable waste container is easy to change. Thanks to this new design, it is now possible to change the disposable waste container without releasing emissions. The powerful motor provides a very high suction power. Naturally, the disposable waste container is equipped with an H14 HEPA filter and therefore suitable for working with hazardous substances such as asbestos and Chromium-6.

Specifications:

- Impact resistant housing.
- Removable disposable waste container with a built-in HEPA filter.
